

gayfield Futures

With The Great Scottish Make Off, the art and design of collaboration reaches a frenzy of activity today as we start seven days of artist-led design challenges accompanied by seven evenings of celebration with a series of acoustic music sets.

With great pleasure we welcome recent Napier University graduate Kate Caven to the team. Kate is the first to join our new Gayfield graduate programme, Ten Months to May: Studio, Design & Industry, full details with next months update.

We see out our summer programme with three midweek lunchtime walks from today and a Sunday stroll west from Gayfield along Edinburgh's railway and riverbank walkways: our news feed details our guest list. This concludes the first month of our year long initiative Pace: Walks for Well Being #walksbydesign.

Next week we move to monthly updates.

We hope you continue to enjoy dipping in to news from Gayfield.

Heres to future collaboration, home and away.

With best wishes,

The 2015 Team at Gayfield
